## THE TURF.

JEROME PARK RACES-SUMMER MEETING - FIRST DAY'S RUNNING.

mening day of the meeting was most brilliant in its fine weather. The rain of the last four days pre-viously had ceased in a change of wind into the north-west, which moderated the great heat of the day previous,

west, which moderated the great heat of the day previous, and save for this occasion a charming air and a clear amosphere. The roads were very little moddy, and, of course, perfectly free of dust, and rendered the drive to and from the course most agreeable. The attendance was moderate only, there not being more than 2,000 persons in all present. There was but a small number of carriages on the grounds. The hills were not crowded with equipages, as on the brilliant days of last Fall, and of the Spring meeting of this year. The stands presented no throng; but the club division presented a very attractive array of beauty and fashion.

Under the present arrangements ladies can only go to the Park for the races in carriages, unless they avail themselves of the early trains on the Harlem Railroad. They cannot venture into the special trains, as no lady would salbant to or could endure the nuisances attendant on them. Were a special train put on for Indies and their cathenes attendants at about 12 to 10 clock, there would be large numbers of ladies attending, who are now, by cristing arrangements prevented from going to the Park. The example of the Eric road in its excursion traits to the Paterson races might well be imitated by realists to the Paterson races might well be imitated by realists of the Paterson races might well be induced by the morth stand deveted to ladies not under protection of members of the Club, with a separate entrance for them, and yet there were no ladies there. This arises from the want of a proper train at a proper hour for heart of the Park and its races. Can this great enterprese afford to neglect any means that will make and maintain they for it with the whole public. At present everything seems done too much for the club mercely. But not only accommodate the ladies, but will add to the popularity of the Park and its races. Can this great enterprese affect to neglect any means that will make and maintain however numerous, can maintain the Park. It is the outside thousands who are to supp

THE RACES.

The Pirit Race.—This was a purse of \$700, for all ages; one mile and five furlengs, to which there were ten entries, all starting. These were: Delaware, Luther, Hampton Court, Ripley, Climax, Chesaut Coit by Vandal, Mandoff Honer, Luxemburg, Local and Shamrock. Delaware was the favorite, being backed against the field, at 1 to 3. Inxemburg second favorite. The start was at the center of the reverse curve, in front of the Club-House, and opposite the middle of the grand stand, to go thence to the judges' stand, and once around. I good go-off was made, and at once Luther made play and took the lead, Climax laying next. All the rest were in compact mass, except Shamrock, who from the start dropped off, and was soon out of the race. Once settled into place, all went on to the half-mile post and round the far turn without change, Luther still leading, Climax staying with him, and the ruck waiting. The leaders made a neat race along the straight stretch, and when they reached a point twenty rods from the judges' stand, after a sharp struggle. Climax pat his head in front, and leading to the stand, went off still in advance into the second mile. Lather fastened himself to him all around the north turn, the two making all the running. The Vandal colt was at the head of the ruck, but the favorite, Deinware, layback, and seemed in trouble. The pace was strong, and no change was made thouse to the ball-mile pole. Here the Vandal colt made a brusb, catching Luther and Climax,

Second Race—This was the Belmont stakes for three year-aids, one mile and five furiones, \$200 subscription, with \$1,500 added. There were ten subscribers, but only four of their nominations appeared, which were bir. Morris's Monday and Ruthless, Mr. Forber's De Courcey, and Mr. Clay's Rivoll. Being the same distance as the first race, the start was from the middle of the Reverse Cerve, opposite the Club House. In the betting Mr. Morris's two stood at \$100 to \$25. At the drop of the flag they all four went off, well up to each other, De Courcey in the lead, Monday mext, with Rathless third, and Rivoli last. De Courcey cut out the work and icd away at a good flight; Monday went at him, and he two made good running thence to the stand, there being no change in position. Sweeping away into the second mile. Monday increased the pace, and, papping De Courcey, ran a yole with him to the head of the north turn, when he headed by a neck, and a beautiful race was made to the quarter-pole, when Monday's brush was out, and De Courcey again showed in front. It was obvious that Monday was to win if he could; if not, then Ruthless was to try her hand. The first mile mished Monday, and on the reverse curve Rivoli took up the running, and moved by Monday to second place, De Courcey still leading strengly. Trem Rivali took up the running, and moved by Monday to second place, De Courcey still leading strengly. From the Clab-House, on to the middle of the north course, second place, De Courcey still leading strengly. From the Club-House, on to the middle of the north course, there was no change. Here Ruthless commenced her game. At her jockey's call she moved up at once, and passed Monday. A dozen strides put her head on Rivoll's quarter, and he was happing De Courcey. Finishing the far curve and entering the straight work home the three made a beantiful brush. In a hundred yards Ruthless had braded Rivoli, and was at De Courcey's side. All lay yoked for the next 30 rods, making a most exciting race. The pace was too strong for Rivoli, and he dropped away. De Courcey and Ruthless now alone, still were full of game, and footed homeward at a good bar. It was now a close and beautiful run. The big coil showed pluck of the best kind. He had made running from the start, and had had all rushing at him in turn. The Billy was the last one, and to easy task dai she find on her hands. The noble pair lay with each other for 60 rods, De Courcey still leading but now the filly drew on him. As they reached the grand stand she had her nove at his saddle-girths. Yard by yard as she strode along she gained, and at the middle of the stand had him beaton, and got her head in front. Fifty yards were left to run, and the struggle was kept up to the finish, De Courcey battling bravely, but Ruthless went over the score by half a length the winner. Rivoll was third, three lengths away, with Monday a bad fourth. Monday had beaten De Courcey for the Jersey Derby at Paterson, Iwo weeks strice. In this race De Courcey took ample revenges, and showed that he could run a stoneer horse; and he made sad havoe of the Derby winner.

Third Ruce.—The Hopeful Stakes, for two year olds, five furiougs. This was a race of youngster debutants. There were ten nominations, four of which came to the post. They were Mr. Morris's Cleopatra, Mr. Sandford's Puck and Pretty One, and Mr. Eacon's filly by Revenue. Cleopatra was favorite against the field at 1 to 2. Mr. Sandford's two were backed at 4 to 5. The start was at the Club House, as in both of the former races, to finish at stand. They got off close together. Once away, the Revenue filly sprang in to the lead. Cleopatra took second place. All lay well together, and made quick running. They went without change to the middle of the south turn, when Cleopatra made a brush for the lead, and in a few strides caught and cut down the revenue filly, and at the head of the stretch and town the revenue filly and at the head of the stretch and town the revenue filly and at the lead in Pretty One took up the place, and soon reached, passed and dropped the Revenue Rilly. But Cleopatra was too footy for them, and going right away from them two lengths, was held hard, and went home leading easily and in hand. There was a pretty race between Puck and Pretty One, and they came up the "whole of the straight stretch home, locked, until a few yards from the finish t, when Pretty One got her head and neck in from and was second.

watson's Dot, and Mr. Morris's No. 3. Virgil was the favorite with the odds 5 to 1 against him.

First Heat.—A hundred yards from home Morrissey had Redwing beaten for the heat, and showing in fropt went to the stand half a length ahead in 1:48—a capital heat. The time and the game manner in which Morrissey had won, made him the favorite, and the odds now were with him.

Second Heat.—At the tap of the drum all got away évenly. At once Virgil cut out the work, and at the turn got to the front, Morrissey, playing the same game, got second, and Redwing was third. Virgil and Morrissey meant work, and rattled away strongly. But Virgil had the foot of him, and he had it of Redwing, and so there was no change, and Virgil led from end to end of the heat, Morrissey coming home second and the filly third.

The heat over Virgil was favorite at any odds and no lakers.

Third Heat.—Again at the goodf Virgil rnahed in to the Second Heat.—At the tap of the drum all got away evenly. At once Virgil ent out the work, and at the turn got to the front, Morrissey, playing the same game, got second, and Redwing was third. Virgil and Morrissey meant work, and rattled away strongly. But Virgil had the foot of him, and he had it of Redwing, and so there was no change, and Virgil led from end to end of the heat, Morrissey coming home second and the filly third. The heat over Virgil was favorite at any odds and no lakers.

Third Heat—Again at the go-off Virgil rushed in to the lead, with Morrissey second. The pace from the start was rapid. Virgil led for half a mile, when Morrissey caught him, and, making a lap brush to the middle of the far turn, out footed him and took the lead. Virgil was guest away for the turn, and some little way down the guest away for the turn, and some little way down the guest away for the turn, and some little way down the guest away for the turn, and some little way down the guest as every fleet New-York runner, and Jerry Powers, known as "Fleetfoot," of Astoria, net out out on Long Island, yesterday afternoon, and ran a two miles race for 200 a side. MUTUALS VS. ECLECTIC.

For the third time this season the Mutuals yesterday came near winning a trophy by defeating their adversaries without their scoring a van. In their game with the independents, the score stood 22 to 1 in their favor; in the maten with the Jeffitsons the totals were 5s to 1, and yealerday, the score at the close of the seventh innings stook at 29 to 0 ind in the hat two innings they scored 12 to 5, leaving the totals of the match at 21 to 5 in their favor. In this match the fine fielding generally, and the effective pitching and catching had far more to do with the result than any poor play by their opponents, the Eelectie's playing an excellent fielding game, considering the slippery condition of the ball when they had to field the Mutuals, giving them plenty of work in the outer field; while the Siutnals, when in the field, kept their opponents within bounds, most of the play being in the an-field.

The grounds were in no fit condition for play, the whole field being spongy and wet from the general feavy rains.

will be to-day, on the occasion of the Atlantic match, as no one anticipated anything but a one-sided game, the betting being that the Mutuals would beat the Eelectics by a larger score than the Unions did: and they did, so far as the ratio of runs was concerned, the Unions defeating them by a lead of but 4 to 1, while the Mutuals led by an average of 6 to 1. The Unipare discharged his dultos very satisfactorily, and the contest, though one-sided, proved to be a quickly-played and interesting match. We append the score:

RESIGNATION OF GEN. SICKLES.

ST TELEGRAPH TO THE TRIBUNE. CHARLESTON, S. C., June 19.—The comments upon Gen. Sickles's course, contained in Attorney-General Stanbery's opinion, were published here this morning, and created a profound sensation. Gen. Sickles has to-day forwarded a request to Washington to be relieved from duty as Commander of this Department, and has demanded a Court of Inquiry on his official actions.

ACTION OF THE PRESIDENT ON THE MILLI-TARY REMOVALS.

The Washington National Intelligencer of yesterday says; "It seems to be settled definitively that instructions will at once be sent to the several military commanders at the South, requiring them to conform their action in reference to the registration and qualifications of voters to the views expressed in the two opinions of the Attorney-General recently submitted to the President and Cabinet, and approved by them. The determination upon this point, and its partial development, probably gave rise to the confident tone induiged by Washington correspondents of the Northern press as to immediate and thorough action in respect to other points embrased in the opinion of the Attorney-General, published by us on Monday. Doubtless, however, a correspondence will speedily be opened with the Generals who have usurped the power of removing civil State officers at the South, and appointing others; and when the facts in each case shall have been obtained and considered, a remedy suited to the particular wrong will be sternly applied. It is very evident that no general rule could be adopted in reference to replacing the deposed officers. While the removals, in the manner they were effected, were all obviously illegal and wrong, the matter might assume a new phase when the question of replacing a particularly obnoxious person in important posts came up for Executive consideration. action in reference to the registration and qualifications

LETTER FROM GEN. SCHOFIELD TO GOV. BROWNLOW Gen. Schofield, commanding the First Military District, has addressed the following letter to Gov. Brown.

ance with the facts which may be developed. In cases where men are indicted for crimes committed since the war, I will cause their arrest and rendition to the civil authorities of Tennessee, upon your requisition. But, when the acts charged were proper acts of war, done under recognized military authority, it would not be proper for me to seid a citizen of Virginia to Tennessee for trial. I hope the views I have expressed will coincide with those entertained by yourself, and also by Gen. Thomas, to whom I have addressed a letter similar in purport to this, and that we may be able to so cooperate as to secure justice and prevent the repetition of acts which tend to violence and disorder. I am, sir, very respectfully, your obedient servant.

Barlow, Mayor of the city, was appointed chairman, and other officers were elected. Cyrus A. Bronck, esq., of the sounty, briefly but forefully explained the object of the meeting, and offered a series of resolutions, which were adopted. The resolutions look forward to the refrection of the College, which had been destroyed during the war, and express the belief that the removal of the College from its present site would tend to dissolve the influence which it still exerts over the mind and heart of Virginia, and which would in all probability destroy its individuality, and
